

Le Tour de Finance

by Sue Cook

Le Tour de Finance, Angers

For those of you who could not attend our recent event at Angers I thought I would share some of the information given on the day.

Many of us think about using a currency transfer company like Currencies Direct when they are buying or selling their house but not many consider how much they could save with regular transfers. If you have private pensions or need to transfer monies regularly for mortgage payments or school fees, this service provided by Currencies Direct could be exactly what you need.

As the table below shows, over a 5 year period you could save nearly €3420 on your pension transfers, this extra money could be used to buy a new car, take a holiday or just help with day to day living costs.

Regular payments example:

How would you like to receive £684 more on your yearly pension transfer?

A typical monthly pension in the UK is £800

But... how much do you actually get into your Euro account?

This is our plan: no fees, bank-beating exchange rates and hassle free settlements with Direct Debit

Typical saving comparing Currencies Direct to a high street bank:

	Exchange Rate Saving Based on 4%	Transfer Fee Saving Based on £25 fee	Total Savings
1 year	£384	£300	£684
2 years	£768	£600	£1,368
3 years	£1,152	£900	£2,052
4 years	£1,536	£1,200	£2,736
5 years	£1,920	£1,500	£3,420

No one likes to waste money but few of us consider how much we are losing by not taking 5 minutes to register with Currencies Direct. Their process is extremely simple and can be done on line by logging on to www.currenciesdirect.com

Once registered the monthly transfer can be set up by Direct Debit so your money will be transferred each month hassle free.

So if you need any further information about this or would like us to organise a Tour de Finance event in your area give me a ring.
